

First Steps

1. Set up your workshop account (skip to 2. if you have your own account)
 - ▶ open letter to get your account name and PIN
 - ▶ follow the instructions from yesterday's email to set your password and then upload your public ssh key
 - ▶ (or manually log in under `https://zulassung.nhr.zib.de` → "account information" → reset password and afterwards upload your key under "manage keys")
2. Login to the NGT cluster with hop via blogin
 - ▶ use `ssh -J USERNAME@blogin.nhr.zib.de USERNAME@login-ngt`
 - ▶ (if needed add your key to ssh with `ssh-add` or specify it with `ssh -i`)
 - ▶ or `ssh login-ngt` with ssh config

```
Host login-ngt
  ProxyJump %r@blogin.nhr.zib.de
  Hostname login-ngt
  User USERNAME
  IdentityFile ~/.ssh/id_rsa_hlrn
```
